SUMMARY

Motivated Computer Science undergraduate specializing in Information Security, eager to contribute to innovative technology solutions. Quick learner with strong problem-solving, communication, collaboration, and adaptability skills, committed to continuous learning and professional growth.

EDUCATION

B.Tech CSE (Information Security), VIT University | Vellore, IN 2022 – 2026

SKILLS

Programming	Java, Python, C, HTML, CSS, JavaScript, SQL, Bash
Core Concepts	OOP, Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks
CyberSec Tools	Kali Linux, Wireshark, Nmap, Hydra, Metasploit, Aircrack-ng, FTK Imager, Autopsy
Developer Tools	Git, GitHub, Visual Studio Code, IntelliJ IDEA, Google Antigravity
Software Tools	Microsoft Office Excel, Word, PowerPoint, CapCut, Final Cut Pro, Adobe Premiere

CERTIFICATIONS

- **Introduction to Cyber Security – Great Learning**
 - Gained foundational knowledge of cybersecurity threats, vulnerabilities, and risk management.
- **Google Cybersecurity Professional Certificate – Google**
 - Learned security operations, threat detection, incident response, and network security.
- **Cyber Job Simulation – Deloitte Australia**
 - Completed practical tasks in cybersecurity through Deloitte’s real-world job-simulation program.

PROJECTS

Image-Based Data Hiding Using LSB, DCT, and DWT

Implemented a Python-based image steganography system using LSB, DCT, and DWT techniques to securely embed data in images. Evaluated performance using PSNR and MSE, achieving high image quality and improved robustness against attacks.

AI-Powered Email Security Extension for Chrome

Developed a Chrome extension that uses machine learning to analyze Gmail emails, detect phishing attempts, and provide real-time user warnings with high detection accuracy.

WORK EXPERIENCE

Java Intern, Icanio Technologies May 2025 – Jun 2025

- Developed Java applications using object-oriented programming principles to build software solutions.
- Debugged, tested, and resolved software defects to improve application functionality and code quality.
- Utilized Git for version control, repository management, and collaborative code integration.
- Collaborated with developers to understand project requirements and deliver software solutions.
